

Weill Cornell Medicine Postdoctoral Scholars

Statistics for Coalition for Next Generation Life Science (CNGLS)

About the Data

Weill Cornell Medicine's Office of Postdoctoral Affairs, Office of Faculty Affairs, and Office of Institutional Reporting provide an annual report on the postdoc population and their demographics.

The Office of Postdoctoral Affairs defines postdoctoral associates (or postdocs) as individuals performing postgraduate work in research that increases their knowledge and experience. Although they hold a doctoral degree, such individuals work primarily under the direction of a faculty member and are not considered independent researchers. Postdocs often participate in the research training of graduate students and sometimes teach informally. Some fellows may be considered postdoctoral trainees as defined in the Introduction, and therefore, these fellows would be subject to the postdoctoral trainee policies and procedures.

The report is comprised of three parts:

1. Demographics of Current Postdocs

- Gender
- Race/Ethnicity
- Citizenship status

2. Median Time in Training for Departed Postdocs (AY2019-2022)

Time in postdoctoral training is calculated based on their appointment start date and appointment end date as a postdoc.

Weill Cornell Medicine Postdoctoral Scholars Headcount by Department Active Postdocs in AY2022

AY2020 Postdoctoral Headcount by Department		Gender			Citizenship Status		URiM Status		
Department Name	Total Count	Female	Male	Gender Not Available	Domestic	International	URiM	Non-URiM	URiM Not Available

•Academic Year (AY) 2022 reflects the time period from July 1, 2021 to June 30, 2022. Postdoc demographics represent the active postdoc population as of January 1st, 2022.

•Citizenship: Domestic postdocs are US citizens or permanent residents. International postdocs are those holding non-immigrant visas.

•URiM (Underrepresented in Medicine): Includes US citizens and permanent residents who identify with one or more of the following: African American/Black, Hispanic/Latino/a, Native American/Alaskan Native, Pacific Islander. URiM Status is only applicable for domestic postdocs.

Weill Cornell Medicine Active Postdoctoral in AY2022

Demographics for Active Postdocs

Gender

Citizenship Status

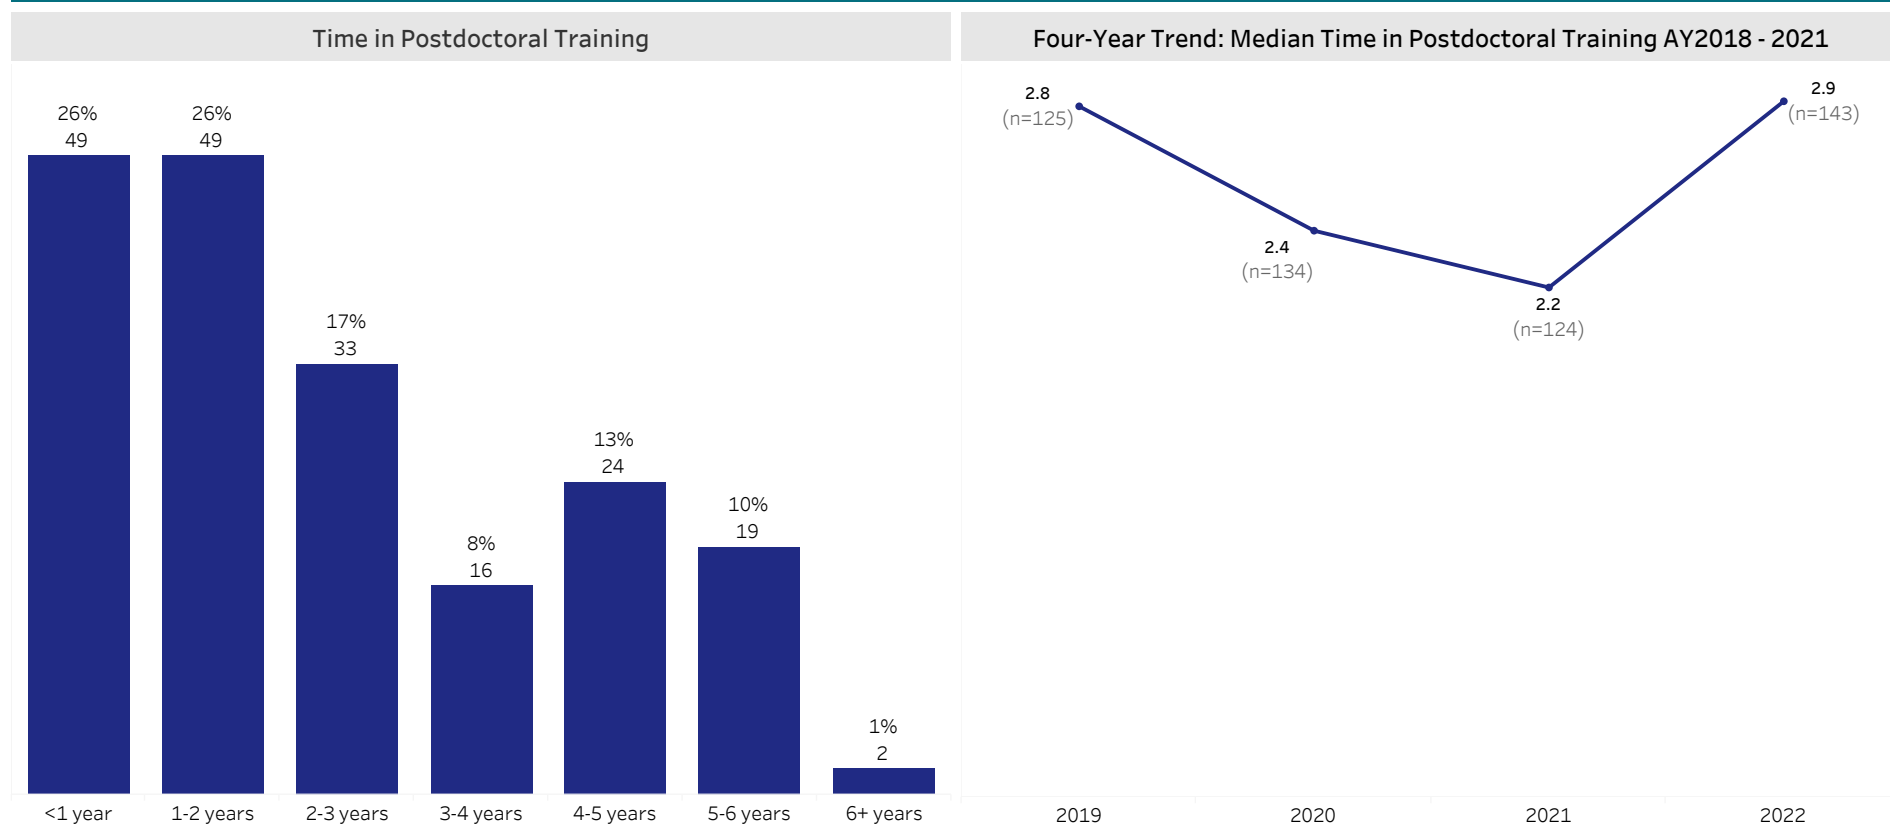

URiM Status

- Academic Year (AY) reflects the time period from July 1 to June 30. Postdoc demographics represent the active postdoc population as of January 1st.
- Citizenship: Domestic postdocs are US citizens or permanent residents. International postdocs are those holding non-immigrant visas.
- URiM (Underrepresented in Medicine): Includes US citizens and permanent residents who identify with one or more of the following: African American/Black, Hispanic/Latino/a, Native American/Alaskan Native, Pacific Islander. URiM Status is only applicable for domestic postdocs.

Weill Cornell Medicine Postdoctoral Scholars Duration Report

Time in Postdoctoral Training for Departed Postdocs by Degree Type

Time in postdoctoral training at time of departure from postdoc status in AY2022 (n=192)
 The total number of departed postdocs this year is higher than normal. OFA believes this is most likely due to postdocs who stayed longer during the pandemic and are now leaving.

Median time in postdoc training excludes individuals who left training less than 1 year.

- Academic Year (AY) reflects the time period from July 1 to June 30. Departed postdocs refers to those who exited their postdoctoral training within the academic year.
- Citizenship: Domestic postdocs are US citizens or permanent residents. International postdocs are those holding non-immigrant visas.
- URiM (Underrepresented in Medicine): Includes US citizens and permanent residents who identify with one or more of the following: African American/Black, Hispanic/Latino/a, Native American/Alaskan Native, Pacific Islander. URiM Status is only applicable for domestic postdocs.
- Other* includes M.D., M.D. equivalent degrees (ie. B.M., D.O., Dr. Med., Laurea Magistrale in Medicine and Surgery, M.B., M.U.Dr.), and other non M.D./PhD. degrees.
